- Fixed aluminium frame
- Can be used with all prism types

Triplesign POP

- For smaller indoor signs
- Frame with detachable front panel
- Can be used with Alusolid prisms and cardboard prisms.

TripleSign – Our Prism Systems

AluSolid (AS80/AS100)

- Aluminium prisms, 100mm or 80mm wide.
- Can be used with all sign- and prism types

Cardboard (CB80)

- For smaller indoor signs
- Frame with detachable front panel
- Can be used with Alusolid prisms and cardboard prisms.

AluQuick (AQ80/AQ100)

- For outdoor signs
- Can be used with Alusolid prisms and cardboard prisms.

Why Chose a Triplesign?

Low tech

A toned down display, different from the glaring LED screens.

Sustainable

Recyclable materials are used and power consumption is very low compared to LED signs.

Cost efficient

Very limited maintenance

Reliable

The Triplesign is reliable and comes with warranty and support.

“A smooth wave motion of a Triplesign combined with a thoughtful design can build up an atmosphere or create an ambiance leaving the audience with a long-lasting impression and feeling”

Control Options

- **Time relay (standard)**

Pre-set to turn every 15 seconds (for example)

- **Program operated**

Programmed to turn for a period of time depending on the day of week etc. For example, rotate every 20 seconds between 7am and 7pm Mon-Fri. 10am to 7pm on Sat and not on Sun.

- **Sensor operated**

Trigger rotation by a sensor, for example if someone walks by.

- **Operated from a control room**

Connect to a central control room through 3G/4G, Wifi or Bluetooth.

- **Operated on site**

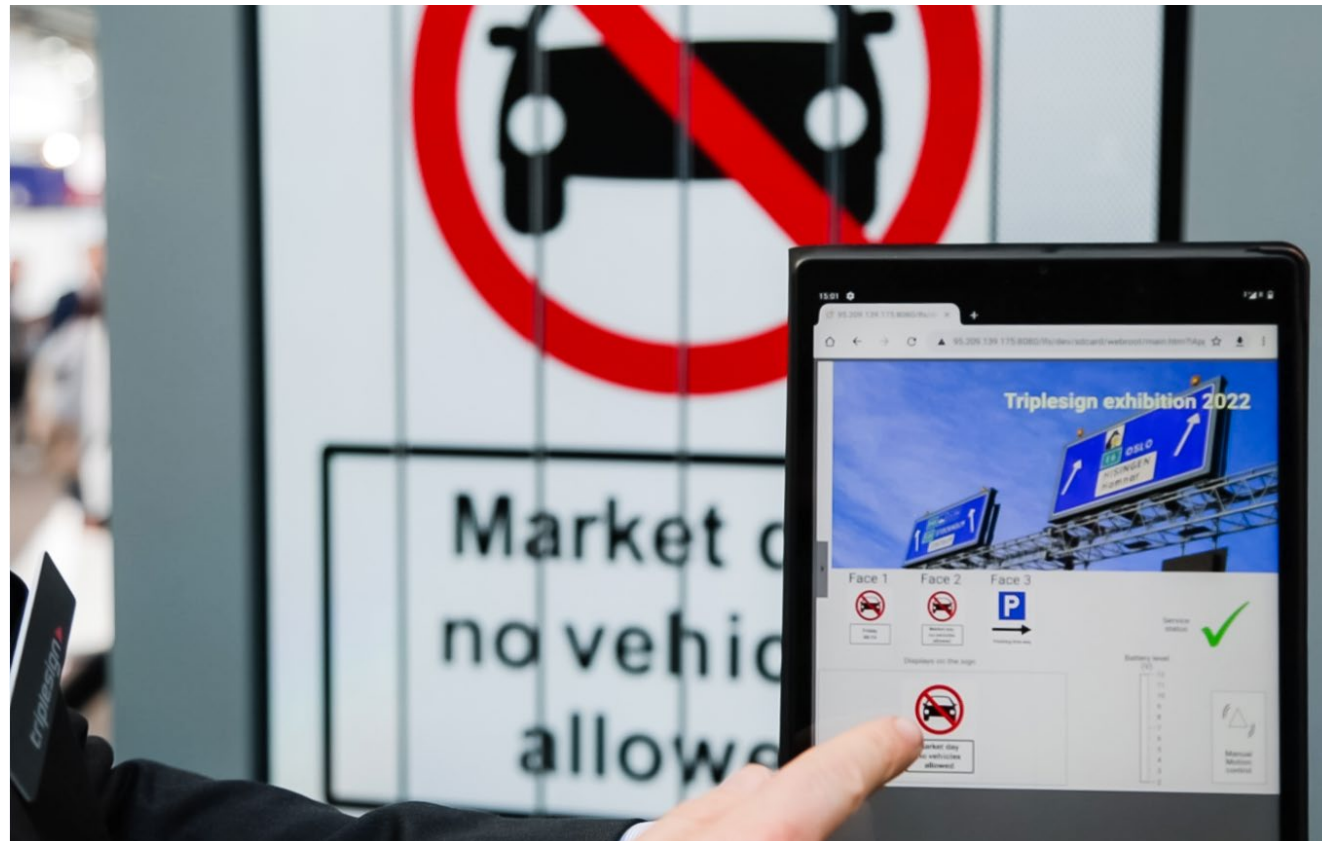

For example, with a remote control (like a tv-remote), switch or push button.

Triplesign Internet Management (TIM)

- Web Interface -

The TIM enables wireless communication, including a Triplesign web interface accessible from any computer, smartphone or tablet.

About Triplesign

*Triplesign System AB was founded in 1998 by the former World Sign owners.
We're a family run company, dedicated to highest quality in everything we do.*

*The Triplesign product has constantly been developed and improved over the years.
Generations of experience has lead to a world class product which is made to last.*

*We offer a reliable system that is easy to install and maintain.
The wave motion is extremely smooth and generates very little sound.*

Our Vision:

*Being the Market leader for the next generation Trivision, based on new patents,
functions & innovations.*
