

Exhibitions 2010 - VISCOM Milan

Triple Sign System would like to welcome you to visit us at VISCOM MILAN, Rho Fiera, 21st-23rd of October! At the show a wide range of new and current products will be on display.

Alupaper - Our new system directly aimed at media companies with high frequency of outdoor paper posting message change.

POPMAXI - the Scroller alternative have created a strong interest among media companies, this is due to its low investment cost, high reliability, LED illumination, low printing/exchange cost and 5 years guarantee.

ECO Technology - Triplesign has developed a complete system to solar our units. In consideration of the increased costs for power and the concern for our environment we introduce the climate smart solution.

Triplesign competes in the VISCOM GREEN COMPETITION with our complete green system including solar panel and battery solution.

As always, you will find us in booth M01/N02.

Welcome to Milan!
Team Triplesign
