

Triple Sign System's product launch of its new divider solution at Viscom Germany 2007 was a great success and the show a very effective way to obtain feedback on the market acceptability.

The divider solution allows the Triple Sign System to even more bring the product Triplesign XP into line with consumer needs such as arena and portrait format three message bill boards.

Triplesign ARENA

Board member Anders Dahlquist congratulates M D Hans-Ivar Olsson to a job well done
